## SUBJECT INDEX

- $\alpha$ -macroglobulin and trypsin-like immunoreactivity are poor indicators of clinical severity in spontaneous canine acute pancreatitis, Levels of total, 83
- Acetpromazine-thiopentone, medetomidine-thiopentone and medetomidine-butorphanol-nidazolam combinations, Use of midlatency auditory-evoked potentials as indicator of unconsciousness in the dog: characterisation of the effects of 35
- Actinobacillus pleuropneumoniae* in an in-vitro pharmacodynamic model, The pharmacodynamic effect of amoxycillin and danofloxacin against, 93
- Adverse effects of soluble non-starch polysaccharide (guar gum) on piglet growth and experimental colibacillosis immediately after weaning, 245
- Alterations in vascular reactivity in isolated vessel segments from dogs with naturally occurring heart failure, 277
- Amidotrizoate for excretory urography in cats, Comparison of different doses of iothelol with, 73
- Amplification of 16S ribosomal RNA gene sequences for the identification of streptococci of Lancefield group B, 159
- Antibody and cellular immune responses of swine following immunisation with plasmid DNA encoding the PRRS virus ORFs 456 and 7 (SC), 199
- Assessment of the respiratory actions of intramuscular morphine in conscious dogs, 141
- Avian leukosis virus subgroup J: a rapidly evolving group of oncogenic retroviruses (R), 113
- Bilirubinaemia on prothrombin time, activated partial thromboplastin time and thrombin time in plasma samples from healthy dogs, Effects of haemolysis, lipaemia and, 273
- Bioavailability of racemic ketoprofen in healthy horses following rectal administration (SC), 203
- Bluetongue virus, The ovine cytotoxic T lymphocyte response to, 213
- Bone marrow response to large volume blood collection in the horse, 255
- Bronchoalveolar lavage cellularity: reproducibility and the effect of multiple repeated lavage, Ovine, 137
- Bursal disease virus infection on its persistency, Persistent infection with chicken anaemia virus and some effects of highly virulent infectious, 233
- Calcitonin gene-related peptide, substance P and dopamine  $\beta$ -hydroxylase in the normal equine larynx, The distribution of nerve fibres immunoreactive for vasoactive intestinal peptide, 251
- Camel (*Camelus dromedarius*) Ultrasonographic determination of the dimensions of ocular components in enucleated eyes of the one-humped, 125
- Carprofen, In vitro stimulation of equine articular cartilage proteoglycan synthesis by hyaluronan and, 183
- Chicken anaemia virus and some effects of highly virulent infectious bursal disease virus infection on its persistency, Persistent infection with, 233
- Cholinesterase activity, Comparison of different diluents and chromophores for spectrophotometric determination of livestock blood, 261
- Classical swine fever virus Phenotypic analysis of peripheral leukocytes in piglets infected with, 53
- Colibacillosis immediately after weaning, Adverse effects of soluble non-starch polysaccharide (guar gum) on piglet growth and experimental, 245
- Comparison of different diluents and chromophores for spectrophotometric determination of livestock blood cholinesterase activity, 261
- Comparison of different doses of iothelol with amidotrizoate for excretory urography in cats, 73
- Comparison of the activities of enzymes related to glycolysis and gluconeogenesis in the liver of dogs and cats (SC), 205
- Cytogenetic analysis of three oropharyngeal malignant melanomas in dogs, 149
- Danofloxacin against *Actinobacillus pleuropneumoniae* in an in-vitro pharmacodynamic model, The pharmacodynamic effect of amoxycillin and, 93
- Definition of the mutation responsible for maple syrup urine disease in poll shorthorns and genotyping poll shorthorns and poll herefords for maple syrup urine disease alleles, 1
- Detection of pseudorabies virus DNA in individual single-reactor pigs found in certified pseudorabies-free herds (SC), 305
- Diagnosis of freemartinism in cattle using sex-specific DNA sequences, The, (SC), 111
- Differential production of proinflammatory cytokines in the pig lung during different respiratory virus infections: correlations with pathogenicity, 47
- Distribution of nerve fibres immunoreactive for vasoactive intestinal peptide, calcitonin gene-related peptide, substance P and dopamine  $\beta$ -hydroxylase in the normal equine larynx, The, 251
- DNA fingerprinting, Population genetics and paternity in Rasa Aragonesa sheep using, 23
- DNA profiling reveals remarkably low genetic variability in a herd of SLA homozygous pigs (SC), 207
- Dopamine  $\beta$ -hydroxylase in the normal equine larynx, The distribution of nerve fibres immunoreactive for vasoactive intestinal peptide, calcitonin gene-related peptide, substance P and 251
- Effect of elevated progesterone levels on intraocular pressure in lions (*Panthera leo*), The, 121
- Effect of probiotic LSP 122 on the control of post-weaning diarrhoea syndrome of piglets, The, 223
- Effects of haemolysis, lipaemia and bilirubinaemia on prothrombin time, activated partial thromboplastin time and thrombin time in plasma samples from healthy dogs, 273
- Effects of molybdenum intake on primary infection and subsequent challenge by the nematode parasite *Trichostrongylus colubriformis* in weaned Merino lambs, 17
- Enterotoxigenicity of *Salmonella* isolated from dogs in Nigeria, 99
- Enucleated eyes of the one-humped camel (*Camelus dromedarius*), Ultrasonographic determination of the dimensions of ocular components in, 125
- Eprinomectin in plasma and milk following topical administration to lactating dairy cattle, Pharmacokinetics of, 229
- Erysipelas in Japan, Serovar, pathogenicity and antimicrobial susceptibility of *Erysipelothrix rhusiopathiae* isolates from farmed wild boars (*Sus scrofa*) affected with septicemic (SC), 301
- Erysipelothrix rhusiopathiae* isolates from farmed wild boars (*Sus scrofa*) affected with septicemic erysipelas in Japan, Serovar, pathogenicity and antimicrobial susceptibility of (SC), 301
- Escherichia coli* O149:K91 strains isolated from pigs with diarrhoea determined by randomly amplified polymorphic DNA analysis, Genetic diversity among (SC), 197
- Fasciola hepatica* vaccines, Immune responses of cattle to experimental anti-, 27
- Freemartinism in cattle using sex-specific DNA sequences, The diagnosis of (SC), 111
- Frequency of urination and ultrasonographic estimation of residual urine in normal and dysuric dogs, 295

- Fructosamine concentrations in hyperthyroid cats, Serum, 171
- Fructosamine measurement: a new approach to renal glucosuria in dogs, Serum, 267
- Genetic diversity among *Escherichia coli* O149:K91 strains isolated from pigs with diarrhoea determined by randomly amplified polymorphic DNA analysis (SC), 197
- Genetic variability in a herd of SLA homozygous pigs, DNA profiling reveals remarkably low (SC), 207
- Gluconeogenesis in the liver of dogs and cats, Comparison of the activities of enzymes related to glycolysis and (SC), 205
- Glucosuria in dogs, Serum fructosamine measurement: a new approach to renal, 267
- Glycolysis and gluconeogenesis in the liver of dogs and cats Comparison of the activities of enzymes related to, (SC), 205
- Haemolysis, lipaemia and bilirubinaemia on prothrombin time, activated partial thromboplastin time and thrombin time in plasma samples from healthy dogs, Effects of, 273
- Halothane anaesthesia in the domestic fowl: plasma biochemical responses, Skeletal muscle damage following, 59
- Heart failure, Alterations in vascular reactivity in isolated vessel segments from dogs with naturally occurring, 277
- Histological and immunohistochemical evaluation of canine chronic superficial keratitis, 191
- Hyaluronan and carprofen, In vitro stimulation of equine articular cartilage proteoglycan synthesis by, 183
- Hyaluronic acid capsular material of *Streptococcus equi* subsp. *Zooepidemicus* in mediating adherence to HeLa cells and in resisting phagocytosis, The role of, 131
- Hyperthyroid cats, Serum fructosamine concentrations in, 171
- IgE and IgA antibody levels in healthy dogs of different breeds and exposed to different environments, Total serum, 239
- Immune responses of cattle to experimental anti-*Fasciola hepatica* vaccines, 27
- Immunisation against lactic acidosis in cattle, 65
- In vitro isolation of *Neospora caninum* from a stillborn calf in the UK (SC), 103
- In vitro stimulation of equine articular cartilage proteoglycan synthesis by hyaluronan and carprofen, 183
- Iohexol with amidotrizoate for excretory urography in cats, Comparison of different doses of, 73
- Keratitis, Histological and immunohistochemical evaluation of canine chronic superficial, 191
- Ketoprofen in healthy horses following rectal administration, Bioavailability of racemic (SC), 203
- Lactate dehydrogenase isoenzyme distribution and patterns in chicken organs (SC), 309
- Lactic acidosis in cattle, Immunisation against, 65
- Larynx, The distribution of nerve fibres immunoreactive for vasoactive intestinal peptide, calcitonin gene-related peptide, substance P and dopamine  $\beta$ -hydroxylase in the normal equine, 251
- Levels of total  $\alpha$ -macroglobulin and trypsin-like immunoreactivity are poor indicators of clinical severity in spontaneous canine acute pancreatitis, 83
- Lions (*Panthera leo*), The effect of elevated progesterone levels on intraocular pressure in, 121
- Lipaemia and bilirubinaemia on prothrombin time, activated partial thromboplastin time and thrombin time in plasma samples from healthy dogs, Effects of haemolysis, 273
- Maple syrup urine disease in poll shorthorns and genotyping poll shorthorns and poll herefords for maple syrup urine disease alleles, Definition of the mutation responsible for, 1
- Medetomidine in ponies and elaboration of a medetomidine infusion regime which provides a constant level of sedation, Pharmacokinetics of, 41
- Medetomidine-butorphanol-nidazolam combinations, Use of midlatency auditory-evoked potentials as indicator of unconsciousness in the dog: characterisation of the effects of acepromazine-thiopentone, medetomidine-thiopentone and, 35
- Medetomidine-thiopentone and medetomidine-butorphanol-nidazolam combinations, Use of midlatency auditory-evoked potentials as indicator of unconsciousness in the dog: characterisation of the effects of acepromazine-thiopentone, 35
- Melanomas in dogs, Cytogenetic analysis of three oropharyngeal malignant, 149
- Microcystis aeruginosa* (Toxin-producing cyanobacteria): a possible explanation for numerous fatalities of livestock and wildlife (SC), Preference of mice to consume, 107
- Morphine in conscious dogs, Assessment of the respiratory actions of intramuscular, 141
- Moxidectin and doramectin in goats, Pharmacokinetics of, 177 Doramectin in goats, Pharmacokinetics of moxidectin and, 177
- Nematodes in the abomasum and the concentration of pepsinogen in ovine plasma, The relationship between the number and size of, 89
- Neospora caninum* from a stillborn calf in the UK, In vitro isolation of (SC), 103
- Non-starch polysaccharide (guar gum) on piglet growth and experimental colibacillosis immediately after weaning, Adverse effects of soluble, 245
- Oestradiol and uterine prolapse in turkeys, The relationships between vaginal collagen, plasma, 153
- Oropharyngeal malignant melanomas in dogs, Cytogenetic analysis of three, 149
- Ovine bronchoalveolar lavage cellularity: reproducibility and the effect of multiple repeated lavage, 137
- Ovine cytotoxic T lymphocyte response to bluetongue virus, The, 213
- Pancreatitis, Levels of total  $\alpha$ -macroglobulin and trypsin-like immunoreactivity are poor indicators of clinical severity in spontaneous canine acute, 83
- Pasteurella multocida*A:3, Ultrastructural pathology of the upper respiratory tract of rabbits experimentally infected with, 163
- Pepsinogen in ovine plasma, Relationship between the number and size of nematodes in the abomasum and the concentration of, The, 89
- Persistent infection with chicken anaemia virus and some effects of highly virulent infectious bursal disease virus infection on its persistency, 233
- Pharmacodynamic effect of amoxycillin and danofloxacin against *Actinobacillus pleuropneumoniae* in an in-vitro pharmacodynamic model, Amoxycillin and danofloxacin against *Actinobacillus pleuropneumoniae* in an in-vitro pharmacodynamic model, The pharmacodynamic effect of, 93
- Pharmacokinetics of eprinomectin in plasma and milk following topical administration to lactating dairy cattle, 229
- Pharmacokinetics of medetomidine in ponies and elaboration of a medetomidine infusion regime which provides a constant level of sedation, 41
- Pharmacokinetics of moxidectin and doramectin in goats, 177
- Phenotypic analysis of peripheral leukocytes in piglets infected with classical swine fever virus, 53
- Population genetics and paternity in Rasa Aragonesa sheep using DNA fingerprinting, 23
- Post-weaning diarrhoea syndrome of piglets, The effect of probiotic LSP 122 on the control of, 223
- Preference of mice to consume *Microcystis aeruginosa* (Toxin-producing cyanobacteria): a possible explanation for numerous fatalities of livestock and wildlife (SC), 107
- Probiotic LSP 122 on the control of post-weaning diarrhoea syndrome of piglets, The effect of, 223
- Progesterone levels on intraocular pressure in lions (*Panthera leo*), The effect of elevated, 121

- Proinflammatory cytokines in the pig lung during different respiratory virus infections: correlations with pathogenicity, Differential production of, 47
- Prostatic size in canine cadavers, Ultrasonographic estimation of, 7
- Proteoglycan synthesis by hyaluronan and carprofen, In vitro stimulation of equine articular cartilage, 183
- PRRS virus ORFs 456 and 7, Antibody and cellular immune responses of swine following immunisation with plasmid DNA encoding the (SC), 199
- Pseudorabies virus DNA in individual single-reactor pigs found in certified pseudorabies-free herds, Detection of (SC), 305
- Relationship between the number and size of nematodes in the abomasum and the concentration of pepsinogen in ovine plasma, The, 89
- Relationships between vaginal collagen, plasma oestradiol and uterine prolapse in turkeys, The, 153
- Role of hyaluronic acid capsular material of *Streptococcus equi* subsp. *Zooepidemicus* in mediating adherence to HeLa cells and in resisting phagocytosis, The, 131
- Salmonellae isolated from dogs in Nigeria, Enterotoxigenicity of, 99
- Serovar, pathogenicity and antimicrobial susceptibility of *Erysipelothrix rhusiopathiae* isolates from farmed wild boars (*Sus scrofa*) affected with septicemic erysipelas in Japan (SC), 301
- Serum fructosamine concentrations in hyperthyroid cats, 171
- Serum fructosamine measurement: a new approach to renal glucosuria in dogs, 267
- Skeletal muscle damage following halothane anaesthesia in the domestic fowl: plasma biochemical responses, 59
- Streptococci of Lancefield group B, Amplification of 16S ribosomal RNA gene sequences for the identification of, 159
- Streptococcus equi* subsp. *Zooepidemicus* in mediating adherence to HeLa cells and in resisting phagocytosis, The role of hyaluronic acid capsular material of, 131
- Substance P and dopamine  $\beta$ -hydroxylase in the normal equine larynx, The distribution of nerve fibres immunoreactive for vasoactive intestinal peptide, calcitonin gene-related peptide, 251
- Thrombin time in plasma samples from healthy dogs, Effects of haemolysis, lipaemia and bilirubinaemia on prothrombin time, activated partial thromboplastin time and, 273
- Total serum IgE and IgA antibody levels in healthy dogs of different breeds and exposed to different environments, 239
- Trichostrongylus colubriformis* in weaned Merino lambs, Effects of molybdenum intake on primary infection and subsequent challenge by the nematode parasite, 17
- Trypsin-like immunoreactivity are poor indicators of clinical severity in spontaneous canine acute pancreatitis, Levels of total  $\alpha$ -macroglobulin and, 83
- Ultrasonographic determination of the dimensions of ocular components in enucleated eyes of the one-humped camel (*Camelus dromedarius*), 125
- Ultrasonographic estimation of prostatic size in canine cadavers, 7
- Ultrastuctural pathology of the upper respiratory tract of rabbits experimentally infected with *Pasteurella multocida*:3, 163
- Urination and ultrasonographic estimation of residual urine in normal and dysuric dogs, Frequency of, 295
- Use of midlatency auditory-evoked potentials as indicator of unconsciousness in the dog: characterisation of the effects of acepromazine-thiopentone, medetomidine-thiopentone and medetomidine-butorphanol-nidazolam combinations, 35
- Uterine prolapse in turkeys, The relationships between vaginal collagen, plasma oestradiol and, 153
- Vaginal collagen, plasma oestradiol and uterine prolapse in turkeys, The relationships between, 153
- Vascular reactivity in isolated vessel segments from dogs with naturally occurring heart failure, Alterations in, 277
- Vasoactive intestinal peptide, calcitonin gene-related peptide, substance P and dopamine  $\beta$ -hydroxylase in the normal equine larynx, The distribution of nerve fibres immunoreactive for, 251
- Wild boars (*Sus scrofa*) affected with septicemic erysipelas in Japan, Serovar, pathogenicity and antimicrobial susceptibility of *Erysipelothrix rhusiopathiae* isolates from farmed (SC), 301
